BC	World of Warcraft: the Burning Crusade™ expansion
2.4	Patch 2.4 Addition
LK	World of Warcraft: Wrath of the Lich King™ expansion - beta

**Notes**

Silver is a special spawn of a Tin deposit (but is found in some zones that don't have tin)
Gold is a special spawn of an Iron deposit, (*and of Mithril, in higher-level zones where iron is not present)
Truesilver is a special spawn of a Mithril deposit
Eternium ore is found in all Outland zones in Fel Iron, Adamantite, Rich Adamantite, and Khorium Deposits
Zones not shown have no mineral deposits present
Most minerals may also be looted, rarely and in small quantities, from various mobs and chests.
Rare ores (named in red) are not Prospectable by Jewelcrafters
