Notes

The Alchemy, Jewelcrafting and Leatherworking recipes are new to patch 2.2.

Two Alchemy potions were redesigned and renamed:

- Flask of Pure Death was Flask of Shadow Fortification (learned by Discovery only)
- Flask of Blinding Light was Flask of Arcane Fortification (learned by Discovery only)

Enchant Weapon – Greater Agility is a new formula; all the level 300 formulas already existed as rare drops, but have now also been added as faction vendor items, and had their material requirements revised.
